III. TRAINING INSTITUTE

1. GENERAL INFORMATION

1) About University

Korea University (hereafter, KU), originally founded as Bosung College, was founded in 1905 by the Treasurer of the Royal household, Young-Ik, Yi, who believed that educating the young generation was the only way to secure Korea's independent status as a nation. Korea University is the country's first institution of higher learning funded and administered solely by Koreans. As such, KU has played a significant role in shaping Korea socially, culturally and academically.

While successive generations of faculty and students remain deeply committed to the University's proud national heritage, they have also been at the forefront of Korea's globalization. The increasing number of international students on campus is a testimony to the University's growing reputation abroad, as well as within Korea. The year of 2005 was the centennial of Korea University. Korea University is in the heart of Global Pride.

Korea University has two campuses covering over 182 acres: the Anam and Sejong campuses. The Anam campus is divided into three sections: the Main campus, the Science campus, and the Medical campus including Housing facilities. The Sejong campus is in Jo-Chi-Won, Chung-nam province.

The Tiger, the emblem of Korea University and a symbol of dignity and courage, represents truth and justice. The monument of the tiger-overacting the globe standing in the main campus of the University reflects not only the drive for excellence, but also the University's global mission.

GSIS was established in 1991 in response to the growing forces of globalization and internationalization. By 1996, the Korean government was calling for experts in international commerce, international relations, and area studies; and in late 1996, the Korean Ministry of Education designated KU GSIS as one of Korea's top five graduate schools of international studies qualified for a major five-year government grant.

The major goals of GSIS are to educate and train specialists in international commerce, international development, international security, area studies and Korean studies. It offers two master's degree programs under the departments of International Studies and Korean Studies.

GSIS welcomes all nationalities. All courses are taught in English.

Apart from the regular program offering, KUGSIS is also operating a variety of extracurricular academic programs in order to provide students more chances to widen their scope of knowledge and global experience.
