

## Korean Government Scholarship Program for Engineering Students from Central/South America

**Chonnam National University, one of the outstanding public universities, leading the globalization in Korea!**

**CNU is the global prestigious university fulfilling international relationships with 424 universities in 57 different countries all over the world.**

**Based on the policy of Korean government, the aim of this program is to reinforce a cooperation with Central South American countries. The Ministry of Education in Korea has started “Training Program for African, Central South American college students”. Beginning from the late-February of 2018, more than 50 universities in Korea applied to this program, but only the Chonnam National University was selected and intend to launch a training program targeting Central South American Science and Engineering students.**

**Chonnam National University will nominate 24 students and NIIED(National Institute for International Education) will select final 20 students in the fields of Science and Engineering from Central South America. During this summer(July, 9<sup>th</sup> through August 10<sup>th</sup>) CNU will provide a fruitful training program without program fee, related to scientific technique education.**

## 5 weeks in Chonnam National University in Korea

● **Period**

July 9th – August 10th, 2018

● **Programs**

1. Lecture on 'Introduction to Materials Science and Engineering'
2. Laboratory Mentoring(Mini research project)
3. Korean Cultural Excursions: Cooking, Folk Village, etc.
4. Company Visits: KIA motors, POSCO, etc.
5. Korean Language & Culture Special Lecture

● **Eligibility**

- Majoring in Engineering at a university from Central/South America
- 2.5 GPA or better on a 4.0 scale
- Fluency in English \*There will be 'Skype' interview

● **Program Fee**

● **Scholarship**

- Round-trip flight ticket
- Room and board
- Medical Insurance

**Programs: Engineering Course + Lab Research + Korean Cultural Excursions + Company Visits**

Programs	Picture	Details
Lecture		Lecture on 'Introduction to Materials Science and Engineering' Dean for College of Eng. Professor Youngman Kim
Lab Mentoring		Research at a Lab with a graduate student mentor
Korean Language & Culture Class		Korean language and Culture class
Korean Traditional Costume Experience		Cultural Excursion Korean Traditional Costume Experience
Korean Food Making		Cultural Excursion Making Korean Food

Programs	Picture	Details
Chonnam National University Robot Research Initiative		CNU RRI pioneers infra on Biomedical Micro/Nano Robotics Research Robotics Experts Consortium for Advanced Robotics.
KIA Motors		KIA is the second largest automobile manufacturer in Korea. Over 1.5 million vehicles a year are produced in 13 manufacturing and assembly operations in diverse countries
POSCO		POSCO is the largest steelmaker company in Korea and especially Gwangyang office focuses on manufacturing automotive steel, high-strength structure steel, pipe steel, and other strategic products.
