*In accordance to the university regulations, the diploma will be issued in February 2020.*

■ **Degree: Master of Education (M. Ed.)**

■ **Objectives**

The Master’s program in Global Leadership in Education at KNUE aims to develop educational leaders in developing countries who have a strong understanding of educational policy development and its influence on practices, as well as a global network that can be used in developing effective educational policies in their home countries and contributing to the global education. The program has two foci: Educational Policy for the Future [PEPF] and Teacher Competency Development [TCD]. Each focus has its unique objective.

## **(1) Program for the Professionals in Educational Policy for the Future [PEPF]**

The objective of this program is to build capacities of leaders for educational policy development, who understand educational leadership and policy at all levels of the education system. To achieve this objective, the program offers theory courses, field experiences, and formal and informal opportunities for networking with people in the program as well as practitioners in the Korean educational system.

## **(2) Program for Teacher Competency Development [TCD]**

The objective of this program is to build capacities of leaders in the area of teacher policy development so that they will be able to have an extended understanding of teacher competency, its value in education and ways to develop teacher competency to meet various educational needs.

■ **Training Institute: Graduate School, Korea National University of Education (KNUE)**  
<http://en.knue.ac.kr>

■ **Number of Participants: 15 Government Officials**

■ **Language**

# III. TRAINING INSTITUTE

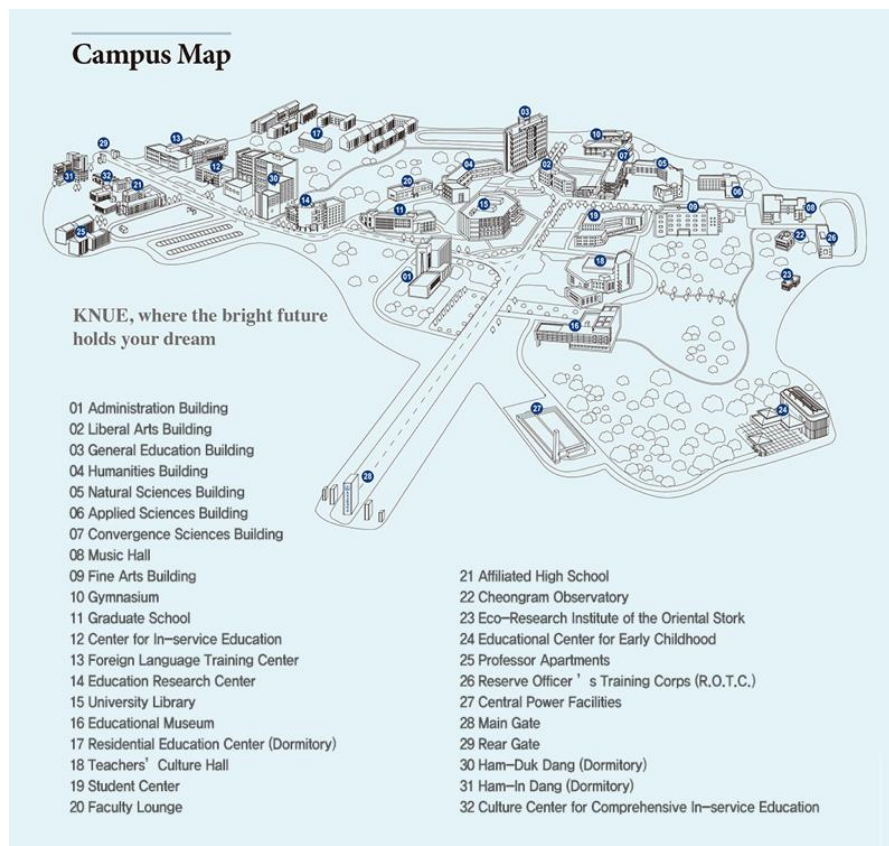

## 1. GENERAL INFORMATION

### 1) About University

#### □ Korea National University of Education (KNUE)

Korea National University of Education (KNUE) is the only specialized comprehensive teacher education university in Korea that fulfills its three main objectives: leading education for future generations through comprehensive education of teachers in kindergarten, elementary schools and secondary schools, continually training current teachers and researching about the theories and practices of education

KNUE runs a residential educational program to let the students realize the true values of love, confidence and patience. The future teacher, through living closely by the residential education program, will become an educational leader of great compassion, service, consideration, elegance, morals, self-motivation, cooperation, understanding and tolerance.

### 3. OTHER INFORMATION

#### □ THE GRADUATE SCHOOL

The Graduate School of KNUE consists of the Graduate School, the Graduate School of Education, and the Graduate School of Educational Policy and Administration of KNUE. The former covers regular masters and doctoral programs and the latter covers master's programs for in-service teachers. The Graduate School Master's program includes in-service teacher's re-education (Special Admission program) and its doctoral courses are designed specifically to develop future university professors and/or education organization specialists. The goal of the Graduate School of Education is to raise the level of school education via re-education of in-service teachers to yield outstanding teachers of talent. KNUE's Graduate School of Educational Policy and Administration is the only education policy specialist graduate school in Korea. It aims to train education policy experts with education policy planning and analytical skills who will lead the 21st century. The master's degree program offers focused training for education specialist in the Ministry of Education and municipal and provincial education offices.

#### □ Library

Acting as an academic information center for the study and research of faculty, students and trainees, the four-story library contains about 1,200 reading seats and a collection of over 500,000 books. The library is a brand new, and has state-of-the-art facilities. composed of three open reading rooms and three materials rooms. The 1st material room contains general books, the 2nd materials room contains bounded journals and magazines and general theses. The educational collection room contains textbooks, teacher's guides, general education books, references and periodicals. The Reference and Serial collection room consists of various references, serials and theses for a degree. The library established an internet-based computerized catalog where people can download materials related to education and course lectures, published dissertations and other materials pertaining to the university and research materials unveiled domestically and overseas.

### ❑ Center for In-service Education

The center for In-service Education focuses mainly on teacher training, which is one of the three main functions that Korea National University of Education plays. It operates and develops creative training courses and methods and acts as a national-level comprehensive education training center, presenting and spreading national educational policies to the education field, effectively unifying education in the nation. In addition, it is an advanced training center which incorporates both research and training functions by applying the research and development of unique and

specialized training programs into the training courses and serves as the center of Korea's teacher training.

#### ❑ Education Research Institute

The Education Research Institute is in charge of educational research, one of the three main objectives of KNUE. It aims to contribute to the qualitative improvement of education in Korea through comprehensive and systematic research on basic education theory and school subject education and teacher education. The Center for Teaching and Learning, which was established in the Education Research Institute in 2009, invites different academic luminaries to take part in forums and workshops for professors and students aimed at improving teaching and learning skills. It also provides various support for teaching and learning facilities, such as class action analysis rooms where classes can be recorded and analyzed, mock classrooms and other various education media production facilities.

#### ❑ Education Center for Early Childhood

The Education Center for Early Childhood was established in 2012 to develop research on early childhood education and support high quality practices of early childhood education out in the field, implementing early childhood education that is appropriate for the future. In 2015, it was selected as the college research institute of humanities and social sciences for promoting various research projects. It provides an opportunity for the children to experience nature through the environmental education program centered around endangered animals, educates the parents on early childhood education and parent education and trains the teachers with customized programs that support early childhood education research and education practice. The Education Center for Early Childhood provides a new paradigm for the future of early childhood education.

**Education Research Institute**

**Educational Museum**

#### ❑ Educational Museum

KNUE Museum founded in 1987 was reborn as the Educational Museum in 2010. The Educational Museum has 7,400 m<sup>2</sup> of space in six exhibition halls and has a collection of about 30,000 items, including educational and historical materials. The Educational Museum has contributed to the

educational researches by collecting, preserving and displaying the educational materials and by studying the materials about the school's history. The Educational Museum is currently developing and operating the various programs on educational culture and Korean traditional culture. The Educational Museum will help KNUC become the center of Korean education in the 21st century by helping KNUC fulfill three educational objectives: the cultivation of future teachers, in-service teacher training and educational research. Also, the Educational Museum is to become a landmark of history of Korean education, the spot of educational research and the space of experience and participation.

#### ☐ **Eco-Research Institute of the Oriental Stork**

The Eco-Research Institute of the Oriental Stork was established in 1996 to restore the oriental stork, which was last seen in 1994 in Korea. The institute researched on the naturalization of the oriental stork and the effects of migrating oriental storks with Russia, China and Japan, countries where the oriental stork naturally inhabits. In 1996, it has received 4 oriental storks from Germany and Russia and after years of successful breeding, the institute now has 97 oriental storks. In September 2015, it released 8 oriental storks at Ye-san Stork Park, an unprecedented event in Korean history. 7 of those released are still living promotions to improve the environmental awareness of the people. It runs an oriental stork habitat education program where the visitors can freely observe and feed the oriental storks in the Cheongnam Oriental Stork Park located inside the university.
