The MPA in Local Government will require a total of 33 *credits* of graduate courses taken over 17 months during three semesters (i.e., fall 2018, spring 2019, and fall 2019). To better accommodate student’s individual academic interests and professional aspirations, students must select into one of two concentration tracks, ***Specialist Career Track and Management Career Track***, during their first semester (see Figure 1). In both tracks, MPA students will be required to take four core courses (12 credits).

Among the four modules, students in the *Specialist Career Track* are required to choose one field of specialization in addition to the Regional Development & Local Public Finance (Module 4) field of specialization. Student must take at least three courses in each module to qualify as a specialist in that field. Since the students will specialize in two fields, this amounts to at least 18 credits. 1. GENERAL INFORMATION

1) About University

Graduate School of Governance, Sungkyunkwan University

Humanities and Social Sciences Campus: 25-2, Sungkyunkwan-ro, Jongno-gu, Seoul, Korea

■ SUNGKYUNKWAN UNIVERSITY

Sungkyunkwan is synonymous with both tradition and innovation in education. The literal meaning of the University's name is 'an institution for building a harmonious society' of perfected human beings. The founding philosophy of Old Sungkyunkwan is needed as much as ever today, in an era of technological advancement that seems devoid of humanity. The University's faculties of more than 1,000 are committed to quality teaching and research, offering students a challenging environment for intellectual and personal growth.

Old Sungkyunkwan was founded over 600 years ago, by royal decree to promote the scholarship in Confucianism. As a nation's highest educational institution, Old Sungkyunkwan went through vicissitudes with the country it served over the centuries. It would be misleading, however, to view the University merely in the context of its pre-modern history. What the University has achieved in the past fifty years meets and exceeds that of the five hundred years preceding our current century.

After World War II, with the emergence of the Republic of Korea, Old Sungkyunkwan underwent a renaissance as a private university. As Korea

modernized and underwent social and economic reforms, the University grew rapidly to address the diverse demands of the advancing country. Though a long history alone cannot guarantee the excellence of an institution, the rich culture, which exudes from a long tradition, is surely a unique and asset of the University. In addition, we take pride in the University's innovative spirit; because of the long efforts to place natural sciences on an equal footing with our strong foundation in humanities, we now operate two campuses: The Humanities and Social Sciences Campus and the Natural Sciences Campus.

Based on a highly successful partnership with Samsung who has generously funded several core initiatives, the University has been rapidly developing and prospering since 1996.

■ GRADUATE SCHOOL OF GOVERNANCE

Graduate School of Governance (GSG) is specialty graduate program with a goal to train students as cooperative leaders, and integrated elite who can mediate among people, a scholar who can harmonize ideals with reality and persons of pragmatic minds. In addition, GSG will establish an “Academy of Governance Studies” which would constitute the governances’ “Think Tank”.

The GSG is one of the primary venues for training and research in Korea. The graduate school provides leading instructional programs that educate domestic and foreign public officials from all levels of government. GSG cultivates students of leaders and statesman in here with such schools as the J. F. Kennedy School of Government at Harvard University and ENA in France.

Internally, GSG provides students with scholarship and various work study programs such as research assistant, teaching assistant, research worker and Internships in citizens' groups. The classes are operated on a full-time basis and are conducted during the day and night. Teaching methodology constitutes team teaching, cooperative learning, Cyber lectures, and among others.

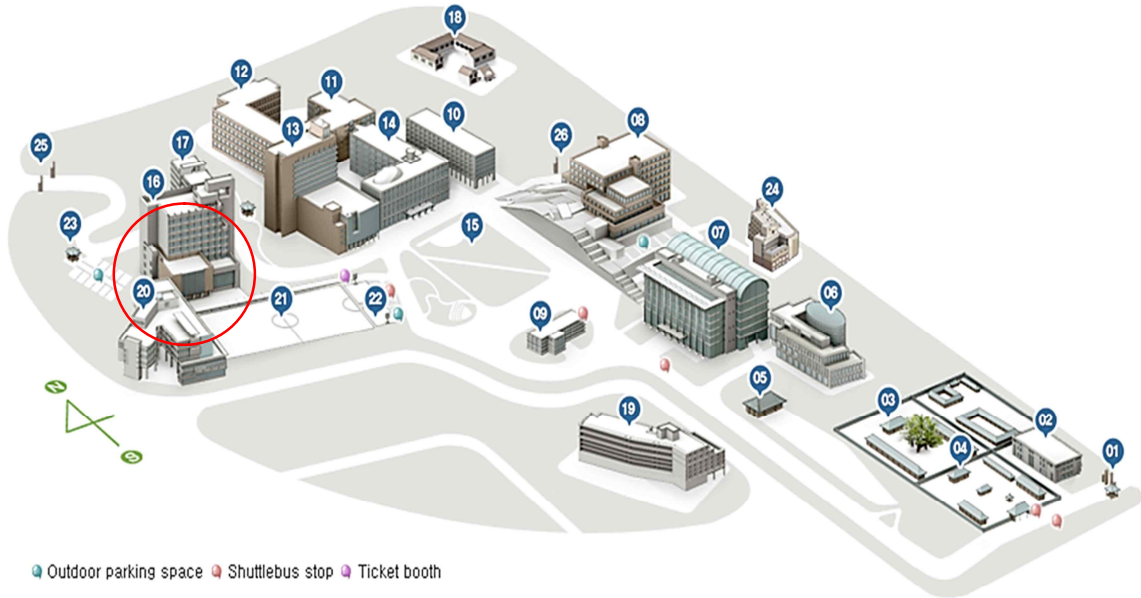

There are a total of 15 full-time faculty members and several adjunct professors in the GSG. The faculty of the GSG represents a strong group of experts and scholars that possess considerable expertise in the field of local government, public management, performance evaluation, governance, comparative administration, participatory administration, policy making, policy design and implementation, analysis, and program evaluation, public finance, regulatory policy, public sector leadership, governance, and urban planning.

The GSG faculty has an excellent and distinguished record of conducting research both nationally and internationally in areas of critical importance to local public management. The research is particularly important in the emerging environment of public sector organization and public sphere in general. Specifically, in the past five years, a large volume of peer-reviewed research articles and books were published by full-time faculty in both English and Korean.

The MPA program is committed to marrying theory and practice which is particularly important in a master's program designed to equip professionals and practitioners in local government management and/or administration. Thus, it is important that faculty possess practical experience and theoretical knowledge in the fields of management, public policy, public administration, and political science.

GSG gives preference to students who embrace greater self-development who are pioneers of change. If you want to see more details about GSG, please visit here: <http://gsg.skku.edu/eng/>
